## **Community Share-Cam**

**"Neighbors helping neighbors...help the Police"**

*By simply registering your home or business surveillance cameras  
you can help solve crimes within your Community*

### Community Share-Cam

Community Share-Cam is a community safety program recently instituted by the New Baltimore Police Department (NBPD) which allows both residents and businesses to partner with officers in the fight against crime in our neighborhoods. Simply by registering your home or business Surveillance System with the New Baltimore Police Department you can be an invaluable asset in solving crimes in your area. When a crime occurs in your neighborhood, the New Baltimore Police will make contact with you and request a copy of your video footage. This footage can help establish leads, identify suspects and save valuable investigative time. All registered camera locations will be confidential and stored in a secure database in our Records Management System, which in turn will allow officers to map out locations of cameras throughout the city. Community Share-Cam **does not** provide the New Baltimore Police with direct access to your Surveillance Systems. Residents and Businesses will only be contacted by officers in the event of a crime occurring in the area of their camera coverage.

**"Neighbors helping Neighbors....help the Police"**

#### **How It Works**

##### **1) Registration**

Registration is easy and takes just a few minutes to complete three simple steps. You provide basic contact information and tell us where your cameras are located. There is NO Cost to register.

##### **2) Confirmation**

Once you completed the registration process, a member of the New Baltimore Police will follow up with you to confirm your registration information.

##### **3) Call for Assistance**

The New Baltimore Police will only contact you if there is a criminal or suspicious incident in your area that video footage may be of use to solve or assist the investigation. When contacted, the Investigations Bureau may request a copy of any video captured by your cameras.
